

CAMTA

Cambodia Agriculture Machinery and Technology Association

CAMBODIA AGRICULTURE MACHINERY AND TECHNOLOGY

A newly established Cambodian Agriculture Machinery and Technology Association (CAMTA) works to identify new machineries and technology that will provide benefits to the Cambodian farming system. CAMTA also operates to bring together various market actors together in order to expose to improved Agro-technology commercialisation and grab the potential opportunities. The association cooperates with the Ministry of Agriculture, Forestry and Fisheries and other relevant institutions in R&D by exchanging information on the demands and shortages of farmers in the market. The forming of CAMTA will support its members to access to new and improved technology which bring about the success of appropriate scale mechanisation.

MESSAGES FROM CAMBODIA

Dear CIAME delegates and Exhibitors,

On behalf of the General Directorate of Agriculture (GDA) of the Ministry of Agriculture, Forestry and Fisheries, I am delighted to witness the establishment of the first Cambodia Agriculture Machinery and Technology Association (CAMTA) and its potential collaboration opportunities with many associations in Asia-Pacific Region to enhancing Cambodia's competitiveness in agriculture technology commercialisation/mechanisation.

On top of that, The Royal Government of Cambodia's rectangular strategy (phase IV) also mentions the need to seek new growth sources to ensure high and sustainable economic growth by taking full advantage of the regional opportunities, encouraging investment in agriculture, ensuring readiness to grab new technologies in the era of digital economy. This 5th ReCAMA training and study tour certainly is an initial learning and networking platform for all delegates to leverage the sustainable use of agricultural machinery.

H.E. Dr. Ngin Chhay
Director General, General Directorate of Agriculture
Ministry of Agriculture, Forestry and Fisheries

Dear CIAME delegates and Exhibitors,

As one of the core branch of government institutions on mechanisation, the Department of Agriculture Engineering (DAEng) is honored to participate in the China International Agricultural Machinery Exhibition 2019, leading Cambodia delegation specifically from the Cambodia Agriculture Machinery and Technology Association (CAMTA).

I trust this study tour and the exhibition totally also serve the important purposes for the group to learn and connect to one another for the promotion of new technology for Cambodia and the whole region. I also would like to take this opportunity to thank to CSAM for the huge efforts to facilitate and support Cambodia delegation. I would also like to thank all the other organizations that have supported this event.

Mr. Ngin Kosal
Director, Department of Agriculture Engineering
Ministry of Agriculture, Forestry and Fisheries

Dear CIAME delegates and Exhibitors,

On behalf of Cambodia Agriculture Machinery and Technology Association (CAMTA), I am honored to be a part of the China International Agricultural Machinery Exhibition (CIAME) and the 5th ReCAMA training and study tour. To be able to provide new and updated technology that would benefits our Cambodian farmers and share new knowledge to all actors in agriculture society is what CAMTA aims to achieve.

As one among many machinery and technology importers in Cambodia, I believe the exhibition is an initial gathering space to provide networking opportunities for dealers, manufacturers and importers to enhance our ideal business platform.

On the side note, I am happy to get a chance to connect to many fellow participants from various association from many countries in the Asia-Pacific region.

Mr. Chav Thou
President, Cambodia Agriculture Machinery and
Technology Association (CAMTA)

PROFILE OF CAMBODIAN DELEGATION

Mr. Ngin Kosal

Director, Department of Agriculture Engineering
Ministry of Agriculture, Forestry and Fisheries

NGIN Kosal is an Irrigation Engineer with over 25 years of experience in the field. For the past 2 years, he has been working with the Department of Agriculture Engineering (DAEng) of the General Directorate of Agriculture (GDA), Ministry of Agriculture, Forestry and Fisheries (MAFF) and is responsible for improvement of mechanisation in the agriculture sector. Currently, he is the Director of DAEng.

Mr. Koeut Kittineat

Deputy Director of General Directorate of Agriculture
Ministry of Agriculture, Forestry and Fisheries

KOEUT Kittineat is a Deputy Director of General Directorate of Agriculture (GDA) with a demonstrated history of working in the civil engineering industry. Kittineat has a strong business development professional with a Master of Engineering (MEng) focused in Earth Sciences from James Cook University. He has developed various skills in Highways, Earthworks, Foundation Design, and Structural Engineering.

Mr. Pen Neou

Deputy Director, Department of Agricultural Engineering
Ministry of Agriculture, Forestry and Fisheries

PEN Neou is a Deputy Director of Department of Agricultural Engineering (DAEng) of the General Directorate of Agriculture (GDA) under the Ministry of Agriculture, Forestry and Fisheries (MAFF) with a demonstrated history of working in the technical aspect within mechanisation.

Mr. Am Phirum

Deputy Director,
Department of Agricultural Land Resources Management
Ministry of Agriculture, Forestry and Fisheries

AM Phirum is a Deputy Director of the Department of Agricultural Land Resources Management (DALRM) of the General Directorate of Agriculture (GDA). He has involved in program development, implementation and assessment on crop diversification, land resources, plant nutrition, and rice production systems, and climate-related challenges in Cambodia.

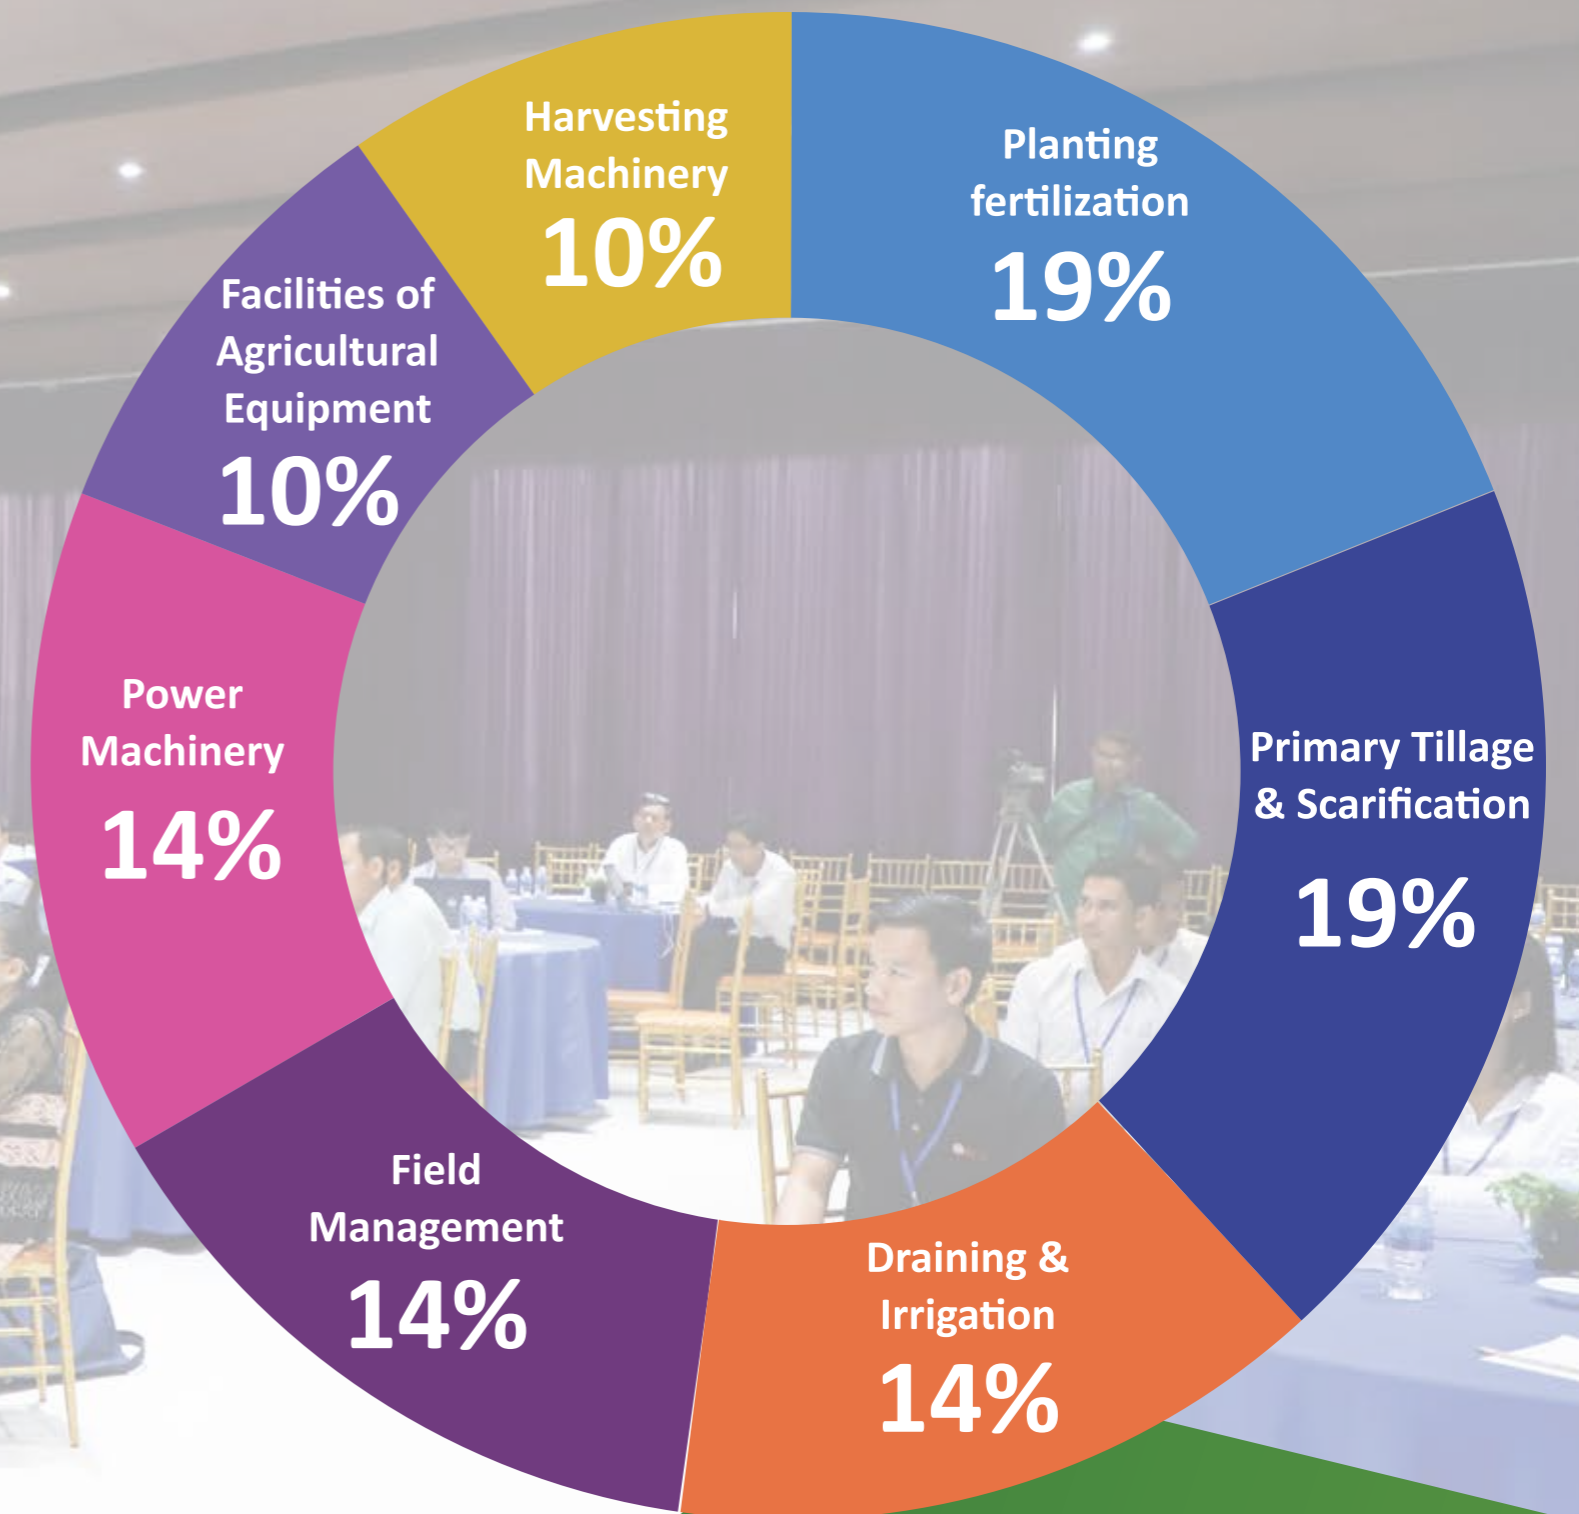

Mr. Rajiv Pradhan

Country Director,
Swisscontact, Cambodia

Rajiv Pradhan is the Country Director of Swisscontact. Rajiv has over 28 years of experience working in both private and development sectors. He has wide experience particularly in SME/private sector development and enabling environment areas. He specialises in strategic management; designing projects; building teams to implement projects; deal making with the private sector; business modelling; and providing innovative scaling/expansion methods in various market segments.

DEMANDS FROM CAMBODIA

The overview of all Cambodian delegation on machinery interests in percentage converted from the 5th ReCAMA training and study tour questionnaire. The survey result reflects that Cambodian government and the private companies shares common interests on several machinery types as listed on the figure.

CAMTA FOUNDING BOARD MEMBERS

CHAV Thou (President) is a CEO of Tropicam Irrigation Solutions Co.,Ltd. He is a distributor of NETAFIM in Cambodia, the World Leader in Smart Drip & Micro-Irrigation Solution Provider. Since 2012, Chav Thou has experienced in sale and business operation management on modern irrigation works.
